

## Vienna PhD School of Informatics

The Vienna PhD School of Informatics is located at the Vienna University of Technology (TU Vienna) and open for national and international students (not limited to the European Union); all courses are held in English. It is a three-year full-time program. Each year no more than 15 students will be admitted. A selection of the admitted students may receive a scholarship (subject to budgetary constraints). Courses start in October 2013.

### Admission and prerequisites

In addition to their academic qualifications and practical experience, students will be expected to show evidence of their interest in the course and research program, as well as an understanding of the demands of postgraduate study. Also, students must provide evidence of adequate English language qualifications.

### Schedule / Deadlines

▪ Application Deadline	May 26, 2013
▪ Interviews	June 18 – 25, 2013
▪ Acceptance	June 27, 2013
▪ Start of Program	October 1, 2013

## How to Apply

For details on how to apply please check

## Curriculum & Contact

The PhD school's curriculum covers the main research areas of the Faculty of Informatics. The PhD program consists of Fundamental Courses and Area Courses. Students have to take five Fundamental Courses, namely, Research Methods, Philosophy of Science, a PhD seminar, Research and Career Planning for PhD students, and Innovation.

The eight Area Courses are research domain specific, following the faculty's main research areas:

- Business Informatics
- Computational Intelligence
- Computer Engineering
- Distributed and Parallel Systems
- Media Informatics and Visual Computing
